Comments: This Laboratory Grown Diamond was created by Chemical Vapor Deposition (CVD) growth process and may include post-growth treatment.

KEY TO SYMBOLS

Red symbols indicate internal characteristics.
Green symbols indicate external characteristics.

The Laboratory grown diamond described in this Report (Report) has been graded, tested and certified and/or measured by International Gemological Institute (IGI) laboratory grown diamond is one that has essentially the same chemical, physical and optical properties as a mined diamond, with the exception of being grown by man (a manufactured product). This is a manufactured (non-mode) diamond produced by CVD (chemical vapor deposition) or by HPHT (high pressure high temperature) growth processes and may include post-growth treatments to alter the color. IGI employs and utilizes those techniques and equipment currently available to IGI, including, without limitation, 10X magnification, 10X magnification, 20X magnification, 30X magnification, 40X magnification, 50X magnification, 60X magnification, 70X magnification, 80X magnification, 90X magnification, 100X magnification, 110X magnification, 120X magnification, 130X magnification, 140X magnification, 150X magnification, 160X magnification, 170X magnification, 180X magnification, 190X magnification, 200X magnification, 210X magnification, 220X magnification, 230X magnification, 240X magnification, 250X magnification, 260X magnification, 270X magnification, 280X magnification, 290X magnification, 300X magnification, 310X magnification, 320X magnification, 330X magnification, 340X magnification, 350X magnification, 360X magnification, 370X magnification, 380X magnification, 390X magnification, 400X magnification, 410X magnification, 420X magnification, 430X magnification, 440X magnification, 450X magnification, 460X magnification, 470X magnification, 480X magnification, 490X magnification, 500X magnification, 510X magnification, 520X magnification, 530X magnification, 540X magnification, 550X magnification, 560X magnification, 570X magnification, 580X magnification, 590X magnification, 600X magnification, 610X magnification, 620X magnification, 630X magnification, 640X magnification, 650X magnification, 660X magnification, 670X magnification, 680X magnification, 690X magnification, 700X magnification, 710X magnification, 720X magnification, 730X magnification, 740X magnification, 750X magnification, 760X magnification, 770X magnification, 780X magnification, 790X magnification, 800X magnification, 810X magnification, 820X magnification, 830X magnification, 840X magnification, 850X magnification, 860X magnification, 870X magnification, 880X magnification, 890X magnification, 900X magnification, 910X magnification, 920X magnification, 930X magnification, 940X magnification, 950X magnification, 960X magnification, 970X magnification, 980X magnification, 990X magnification, 1000X magnification.
