FLAWLESS	IF	VVS	VS	SI	I
INTERNAL FLAWLESS	IF	VVS	VS	SI	I

The laboratory grown diamond described in this report (Report) has been graded, tested, analyzed, examined and/or included by International Gemological Institute (IGI). A laboratory grown diamond is one that has essentially the same chemical formula (C₁₂) as a natural diamond but is created in a laboratory setting using high-pressure, high-temperature (HPHT) or chemical vapor deposition (CVD) methods. IGI employs the most advanced and equipment currently available to IGI, including without limitation, 10X magnification, corrected field-of-view microscope, multi-color comparison stones, non-contact optical instruments and/or processes as deemed appropriate by IGI. This report includes color, clarity and fluorescence information. IGI does not guarantee the relationship between color and clarity. THIS REPORT IS NEITHER A GUARANTEE, VALUATION, NOR APPRAISAL OF THE GEMSTONE DESCRIBED HEREIN. PLEASE REVIEW THE LIMITATIONS AND RESTRICTIONS SET FORTH ONLINE FOR ADDITIONAL INFORMATION, IMPORTANT LIMITATIONS AND DISCLAIMERS. PLEASE GO TO WWW.IGI.ORG OR CALL 1-888-801-1039.
